EXPERIENCE

EMCAD Technologies | SENIOR SOFTWARE ENGINEER

OCT 2021 – PRESENT | Bengaluru, India

- Works as **Technical Lead** for front-end on multiple claim related applications for **SwissRe**
- Responsibilities:
 - Designing scalable applications from ground up
 - Delegating work and assignments to team members
 - Identify and fix technical problems
 - Analyzing users' needs and finding technical solutions (POCs)
 - Guiding and mentoring team members
 - Working across applications on important features
 - Develop and maintain shared components and libraries
 - Performance analysis and optimization of applications
 - Designing micro-frontend applications to be used among related applications

INFOSYS | SPECIALIST PROGRAMMER

JUL 2018 – SEP 2021 | Bengaluru, India

- Works as Front-end Developer on **Angular** for **SwissRe**
- Responsibilities:
 - Develop new user facing features
 - Enhance application for maximum speed and scalability
 - Ensure responsiveness of application across multiple devices
 - Create and maintain reusable components and reduce the overall development time
 - Perform code reviews to ensure quality and correctness of code
 - Make suggestions for better solutions to problems
 - Translate UI/UX design wireframes to actual code
 - Validate input before submitting to back-end

EDUCATION

BITS PILANI GOA CAMPUS

B.E.(Hons.) Computer Science

Grad. May 2018

COURSEWORK

Data Structures and Algorithms
Operating Systems
Computer Architecture
Computer Networks
Machine Learning
Software Development for Portable Devices
Principles of Management
Astrophysics
Professional Ethics

ST. THOMAS RESIDENTIAL SCHOOL

ISC | 12TH GRADE

Grad. May 2013 | Percentage: 92%

ICSE | 10TH GRADE

Grad. May 2011 | Percentage: 91%

SKILLS

FRONT-END

Angular★ • ReactJS • Ionic
JavaScript★ • TypeScript • RxJS
HTML • CSS • Android

BACK-END

Java • Python • NodeJS
C# • .NET Core • C++ • C

DATABASE

Firebase • SQL Server • MongoDB

TOOLS

VS Code • Git • Azure DevOps • Bamboo • Jira • DevTools • Anaconda • IntelliJ • Eclipse • Android Studio • Vim • Visual Studio

INTERNSHIPS

YQ CART, THIRDEYE NETWORKS | INTERN

MAY 2018 – JUL 2018 | Thiruvananthapuram, India

- YQcart is an app based food and grocery delivery startup.
- Developed the web portal for shopkeeper registration, shop registration & stock updation of yQcart.
- Worked on **Firestore**, **HTML5** and **React**

CA TECHNOLOGIES | INTERN

JUL 2017 – DEC 2017 | Hyderabad, India

- Replaced the existing back-end JGroups messaging system used by their product with **Apache Kafka**
- Integrated **OpenID Connect** Single Sign-On Technology to their product for enhancing security

VIKRAM SARABHAI SPACE CENTRE, ISRO | INTERN

MAY 2017 – JUN 2017 | Thiruvananthapuram, India

- Designed and implemented the Event Detection Software used in Flight Control System of GSLV Mk III on a Model-Based Software Development tool called **SCADE**

PROJECTS

INTERASK, A COLLABORATION TOOL | IONIC APPLICATION

NOV 2018 – DEC 2018

Developed an **Ionic** application to answer and post queries to collaborate easily within the team to understand quickly the various aspects of the projects from internal experts of that particular field.

MOVIE RECOMMENDATION SYSTEM | MACHINE LEARNING

SEP 2018 – NOV 2018

Implemented **K-Means Clustering** to get favorite genres & its mean rating from user inputs, and recommend the movies using **correlation**.

CRIME DETECTION ON SFPD DATASET | MACHINE LEARNING

APR 2017 – MAY 2017 | BITS Pilani K.K. Birla Goa Campus

Implemented a **Random Forest Classifier** based classification of the type of crime on San Francisco Police Department Crime Dataset, as a part of Machine Learning course.

PRODUCT IDENTIFICATION USING IMAGE IDENTIFICATION APIs | ANDROID APPLICATION

JAN 2017 – MAY 2017 | BITS Pilani K.K. Birla Goa Campus

Designed and implemented an **Android** Application to identify household products using **Google Cloud Vision API** and retrieving shopping lists for the same by using **Amazon Marketplace API**.

MIXED CRITICALITY REAL TIME SYSTEMS | DESIGN PROJECT

AUG 2016 – MAY 2017 | BITS Pilani K.K. Birla Goa Campus

Worked with Dr. Biju K. Raveendran to design an energy efficient Multi-Level Mixed-Criticality Real-Time System scheduling algorithm.
